## End of Winter, Maybe??

The seasons change in March as the globe rolls around the sun. March brings in spring and ends the winter. Spring in the northern half of the world begins with the vernal equinox, which almost always occurs on March 21. On this day, the sun rises directly in the east and sets dir. in the west, so that the length of the day is exactly equal to the length of the night March can be both wintry and springlike. Blustery, windy days occur as frequently as mild, sunny days.

In the North. Hemisphere, many animals and plants awaken, or come to life again during March. Sap flows in the trees and green buds begin to appear. The first pussy willows and wild flowers can be found in the woods. Most frogs lay their eggs. Animals such as bears and woodchucks leave their winter sleeping places. Wild geese and ducks begin their northward flights.

In March, people begin to look for the first robin as a sign that spring really has come. Early songbirds appear.

The book of Ecclesiastes in the Old Testament reads, "To every thing there is a season, and a time to every purpose under the heaven: 'A time to be born, and a time to die; a time to plant, and a time to pluck up that which is planted.' March is a time to be born and a time to plant, as it seems the earth itself is being reborn.

## Can Agawam Afford to Lose A \$10 Million Development?

V. R. Moreno

Of Course not! There comes a time when common sense must be applied. A development firm has come to Agawam and is willing to invest the above amount of money. Coming before the town meeting this Saturday are 2 developments that will bring this \$10 million amount of real estate into town. One is the Southgate Village located on the Connecticut end of town, the Bonomi tract. The 2nd is the office building on Main St. to be built by Dr. Query.

After weighing carefully all the pros and cons and giving careful consideration to the judgment of our public officials, those elected and those employed in an official capacity, by profession, it is not difficult to make up one's mind.

### All Aspects Favorable

Consider the positive qualities: The Planning Board whose legal duty is to make a recommendation based on the facts HAVE VOTED IN FAVOR. The Engineering Dept. has stated "there is ample sewer to handle this development" (by actual test) also, "there is no water problem" and too, "there is no traffic difficulty", Location, "no legal abutters opposition", Meets all zoning requirements of strict new zone by-law and is a terrific tax impact to town.

Present experience shows a maximum of one school child to every 7 apartments. New zone by-law makes prohibitive any efficiency apartments being built. Luxury apartments have 75% more value than efficiency apartments. Tax impact derives from real estate, car excise, water, fees, business corporation, inventories, etc. Business and Industrial Commission voted unanimously in favor. Believe it or not there is not one legal nor sensible reason or argument in the opposing faction.

## TAXPAYERS OFFER DIRECTORY OF ELECTED OFFICIALS

"Be specific; Be brief; Request Action; Ask for an answer" - that's the advice of the Mass. Taxpayer's Foundation to taxpayers writing to their legislators. It's part of the helpful info contained in the 1969-1970 Dir. of Mass. Elected Officials prepared by the Foundation.

The Directory, which is free to anyone who sends a postcard to the Foundation at 145 Tremont St. Boston, Mass. 02111, and requests one (they are also available in bulk at a nominal charge), lists the names and addresses of all state Reps and Sen's, and their addresses, both by their district and alphabetically. It also lists the Constitutional Officers and their home addresses and the Gov's Council.

It also lists the Mass. Senators and Congressmen, with both their home and office addresses. It also tells the Congress. District of each of the cities and towns.

The Directory gives helpful advice on how to contact the leg. which method to use and how best to use it; the correct form of address for the different offices and other helpful info.

Mass. Taxpayers Foundation Exec. V.P. Frank J. Zeo has stressed how important it is for every concerned taxpayer to communicate directly with his legislator. During

the current "taxpayers revolt", Zeo has noted that used tea bags and bumper stickers are good for attracting attention to the mood of taxpayers, but they are no substitute for communication with leg. The Foundation hopes that the "Directory" will help people to do just that.

Two historic patents were granted in March. Eli Whitney patented the cotton gin on March 14, 1794, and Alexander Graham Bell patented the telephone on March 7, 1876.

At least 12 famous musicians have been born in March. Arturo Toscanini, Johann Sebastian Bach, Bedrich Smetana, Kurt Weill, Heitor Villa-Lobos, Maurice Ravel, Arthur Honneger, Johann Strauss, Nicholas Rimsky-Korsakov, Modest Mussorgsky, Bela Bartok and Joseph Haydn.

Several famous inventors were born in March. George Pullman, March 3, 1831; Alexander Graham Bell, March 3, 1847; and Rudolf Diesel, March 18, 1858.

Miriam Keating (Right), as Mrs. Mercy, and Betty Williams, as Sister George, are pictured rehearsing Western Mass. ANTA's production of the controversial London, Broadway and movie hit "The Killing of Sister George." Directed by Waldo

A recent Supreme Court decision, Ginzburg vs. New York, has held that sexually offensive materials are not constitutionally protected where the interests of minors are concerned.

"It is my conviction," Conte said, "that my bill is completely consistent with this ruling, and would enable parents to effectively protect their children from offensive sexual material."

J. Edgar Hoover tells this story of a con man who thought he knew all the angles. After laboring ceaselessly to perfect the signature of a society big shot the swindler successfully passed off a forged check on a local merchant. Inspired by his initial success, he went back to cash a second check, only to be apprehended. The first check has been returned with the notation "Insufficient funds."

## Conti Report from Washington

What's Congress Doing?

Washington, D.C., Feb. 27....Conte today sponsored a double-barrelled bill designed to eliminate the mailing of obscene material to minors.

The bill, in addition to prohibiting the mail-order sales of smut to school-age children, would also make the unsolicited mailing of "hard-core" pornography, or offers to sell such pornography, to any family with children under 16, a fed. crime punishable by fine and jail sentence.

"The need for such legislation has been amply demonstrated," the congressman said. "Last year alone, the P.O. Dep't received over 165,000 formal complaints from unsolicited offensive mailings."

"My bill does not seek to limit freedom of speech or expression in the adult world. It does, however, place responsibility for unsolicited smut mailings to children and

families on obscenity racketeers who are little concerned with artistic values."

Present legislation covering porn. is limited to enabling a resident who receives objectionable material to request the P.O. to order his name removed from the dealer's mailing list.

"This is simply not adequate," Conte continued. "My bill would make clear that pornographers would be required to determine whether their mailing lists include the names of families with school-age children."

In addition, Conte's bill does not attempt to employ the difficult legal criteria for obscenity, but rather sets forth with particularity the materials proscribed for mailing to children or families with children.

The only materials prohibited from such mailing or sale under terms of the bill are the stock-in-trade of smut merchants: Explicit portrayals

**TODAY'S AGRI-FACT:** Apples are grown in every county in Massachusetts; in fact in almost every county in New England. Although they are an important crop only in New England and New York, McIntosh apples still rate as the No. 2 apple in production quantity in the nation, with Delicious out-producing Macs slightly. Of course McIntosh are the leading N.E. variety and are highly prized in England; apple exports to England and the Continent go out through the Port of Boston.

Yes, I will go. I would rather grieve over your absence than over you.
